Statement by Secretary Adams on Appointment of Cindy Tuck

SACRAMENTO – Linda Adams, Secretary for Environmental Protection, issued the following statement regarding the appointment of Cindy Tuck, formerly Assistant Secretary for Policy, as Undersecretary for Environmental Protection:

"I'm thrilled at the Governor's decision to promote Cindy Tuck as Undersecretary for Environmental Protection. Cindy has an impressive career of service, with over 20 years of experience in the development of California's environmental laws, regulations and programs. Her understanding and appreciation of environmental issues and her familiarity with California's water quality, air quality and hazardous materials programs is unmatched.

"Cindy has a reputation for building consensus and developing commonsense solutions that integrate the interests of all parties, while keeping air quality and environmental protection as a top priority. She played a leadership role in the development of the Goods Movement Action Plan, and continues to fight for air quality improvement projects from the voter-approved Proposition 1B transportation bond."

"As Undersecretary, Cindy will continue to be an important part of the team as we move forward on the Agency's goals to fight climate change, improve air and water quality and protect public health."
